ALL LEVELS MOTORCYCLE TRACK DAYS & PERFORMANCE RIDING CLINICS

Motovid.com is proud to announce its 14th consecutive season of All Levels Track Days & Performance Riding Clinics. The 2018 season is now even bigger and better than ever including two (2) All Levels Track Days at Road America alongside the traditional schedule of All Levels Track Days and Performance Riding Clinic events at Blackhawk Farms Raceway.

Motovid.com All Levels Track Day and Performance Riding Clinic programs provide the most conducive track environment, with trained staff to optimize time and safety while delivering the highest quality experience for our customer, you, the track day rider. No gate fees or membership fees.

ALL LEVELS TRACK DAYS

The widely successful four session track day format championed, further refined by Motovid.com since 2004 allows for riders of all skill levels to experience their motorcycle on closed circuit race tracks safely with their peers, testing their limits in a controlled environment provided the oversight from trained control riders, certified instructors and rider coaches. All Levels Track Days maintains 6:1 ratio or better, participants to Control Rider staff with passing rules based on level designed to optimize safety and experience.

PERFORMANCE RIDING CLINICS

Similar to All Levels Track Days, Motovid.com offers focused, dedicated instruction with its Performance Riding Clinics in three (3) courses; Sport Riding 101 - Introduction to Track Riding for New Riders, Performance Riding 201- Fundamentals for Intermediate Riders and Advanced Basics 301 - Riding Techniques for Advanced Riders.

Each Motovid.com Performance Riding Clinic course provides classroom sessions on the hour with a focused curriculum, on track exercises designed for a specific level of riding, experience taught and presented by a team of trained instructors with 3:1 ratio, students to assigned coach.

Motovid.com Performance Riding Clinics are designed for riders interested in a focused and structured performance riding education curriculum, low grid density, optimum coach to student ratio, to further develop improved riding fundamentals and safe riding techniques. For more details, date, and availability, go to <http://www.Motovid.com> or contact the office direct (773) 234-4713.

TRACKSIDE SERVICE PROVIDERS

To further compliment and support the track riding experience, Motovid.com has established trackside relationships with Woodstock Harley-Davidson for Tire Sales and Service, event photos from Zone Photography, Chicken Hawk Tire Warmers Rentals with JOS Motorsports, Safety Gear Rentals from Moto Union and Suspension Setup and Tuning Services from Farrell Performance. All trackside partners are dedicated to helping Motovid.com participants, improve their performance and experience at all events.

GROUPS ASSIGNED BASED ON SKILL, EXPERIENCE, SPEED

During Event sign-up, Motovid.com attempts to properly assign riders to their session groups based on skill, experience and speed stated. However, in the event the rider's exhibited pace, skill set is not up to speed, on par with other riders in his/her's assigned group the Motovid.com Control Staff can re-assign the rider to a more suitable group at any time during the event.

For general safety and overall experience for the group, Session density is further limited on track. In this way, all riders to be grouped with riders of their own capabilities; skills, pace and experience, alongside dedicated staff riders with 6:1 participant to Control Rider ratio or better.

All Levels Track Day format maintains four 15 min. sessions per hour assigned to the respective run groups; BLUE – GREEN – ORANGE – YELLOW, with approximately 6-7 riding sessions per day.
